

Information for a good start in your new home

Looking for a flat

People who move to Valais usually rent a flat. If you want to buy a property directly, it is best to enquire at specialised real estate agencies. Newspapers and the Internet provide valuable services in the search for suitable rental properties. For example, some larger municipalities display available properties in a “housing market” on their websites. Smaller municipalities may be able to provide verbal information about vacant flats.

An online regional housing market is currently under construction on this website.
