IN DETAIL

CHILDCARE at home

Are you looking for a suitable solution for your childcare? We are happy to help you find the best individual solution for you and your children.

- Au-Pair at home: Become a host family

The Au-Pair system has many advantages. Not only the childcare at your home, but also the cultural and linguistic exchange is extremely valuable. As a host family, you take in a young adult (18-25 years old) from Switzerland or the EU region who wants to spend a year studying a language. The Au Pair lives with you in the family and helps you with childcare and light housework. In addition, the Au Pair attends a language course and learns a foreign language within one year.

- Babysitting (by the hour, single days)

If you only need childcare for single days or hours, this is the right thing for you. We organise young people & students from the region for you, who take over childcare at your home.

- Qualified nanny: Professional childcare at your home (Childcare specialist or equivalent qualification)

Would you like a professional to look after your children in your home? Then this is the right choice for you. A qualified professional, especially from the Valais region, will take over the care of your children in your family as a nanny, full-time or part-time.

SCHOOL, LEARNING & INTEGRATION HELP FOR CHILDREN

Especially for children, who have to find their way around in a new place and who are perhaps also confronted with a foreign language, it is often difficult to settle in at school and in their free time. We help your child to quickly make the connection at school and in their free time.

- Tutoring for pupils

A suitable coach for your child (e.g. students from secondary schools or universities) from the Valais region, will help your child 1 to 2 times a week, basically via a digitalised channel (video meetings), with their learning and homework and support them to quickly find their way around the new school and to be successful. In addition, the coach is available via WhatsApp for you and your child during the rest of the week.

- Tutoring for pupils + school & integration coaching services

In addition to the tutoring already described above, we analyse together with you as parents, with your child and your child's teacher, where your child stands in terms of school and leisure. Then we define the goals together and develop a step-by-step plan and implement it. This may include the organisation of a goal-oriented leisure activity or an additional (language) course, or the definition of the topics on which the coach should work with your child in particular.

SERVICES & COACHING FOR EXPATS & NEWCOMERS

Are you or your family new in Valais / Switzerland? We are happy to help you with 1-to-1 coaching or with individual services, so that you can find your way around and feel at home in your new place of living and working as easily and quickly as possible.

- 1to1 coaching for expats & newcomers

In weekly 1-to-1 coaching sessions (basically via video meetings), we answer all your questions regarding your new living and working environment here in Valais/Switzerland. In addition, we are personally available for you 7 days a week via WhatsApp.

- 1to1 coaching + «Done-for-you» services for expats & newcomers

In addition to 1-to-1 coaching, we also offer services to have certain tasks done directly by someone for you and your family. Together we will work out the right package for you with a combination of 1to1 coaching and the so-called "Done-for-you" service. With the "Done-for-you" service, we take over tasks that you have defined and do them for you, so that you can concentrate on other things. These could be, for example, tasks in administration/authorities, children, leisure time, etc.

ABOUT VALAIS HOME

Valais Home is a young, innovative association with the goal of making it as easy as possible for people and families, who have moved to Valais from abroad to get started in their new place of work and life. An important part of this is the care, integration and schooling of the children of these newly arrived families. Valais Home has young, dynamic and motivated individuals, who can identify with this mission.
